### Problem Statement:

At the end of the month we start to have money crisis. Lack of proper planning of our income. Person has to keep a log in a diary or in a computer. All the calculations need to be done by the user. Overload to rely on the daily entry of the expenditure

### Solution:

An expense tracker app allows you to monitor and categorize your expenses across different bank and investment accounts and credit cards. Some of these apps also offer budgeting tools, credit monitoring, mileage tracking, receipt keeping, and advice to grow your net worth.
